

January 10, 2007

To Whom It May Concern:

BET Construction and Roofing Services, Inc. has recently completed work at East Ridge Retirement Village. Their work consisted of removing and replacing the roofing on 248 Independent Living resident units or 91 buildings over the course of nine months in 2006. The total contract amount was approximately \$3.1 million.

James Scardina and his staff completed the project satisfactorily and with a minimum amount of disruption to the residents of East Ridge. BET Construction dedicated a portion of their personnel to this project from start to finish, which provided us with a quality project and few punch list items.

Based on their professional attitude, knowledge of roofing and attention to detail, I am happy to recommend BET Construction and Roofing Services, Inc.

Sincerely,

Ken Kremer
Executive Director
East Ridge Retirement Village
